How did you hear about this program? (Social Media, Newsletter, Contractor, Other)?

Application Submission

I have read and understand the toilet rebate policy requirements as stated on the City's Toilet Rebate web page. I understand that in order to receive the rebate, I must dispose of any replaced toilet(s) so that it cannot be reused. I also understand that an inspection of the installed toilet(s) may be required prior to rebate approval. Please note that rebates cannot be issued at properties that have a master meter since an individual account is unable to be credited.

Applicant's Signature _____ Date _____

The completed application with the original receipt attached for the purchase of the replacement toilet should then be submitted using either of the methods below:
