The following noise level standards will apply to your permit. These and additional standards are described in greater detail in the Daytona Beach Code of Ordinances. Chapter 42, Article IV. Measurements shall be made at least 100 feet from any property line of the premises from which the noise is generated.

10 dBA above background noise during the hours of 7:00 a.m. to 10:00 p.m.
5 dBA above background noise during the hours of 10:00 p.m. to 7:00 a.m.

If the background noise cannot be measured in accordance with the standards above, the noise level standard shall be set forth in the following table. For purposes of applying this table, the terms, "residential", "commercial", and "industrial" refer to the type of use of the property which is the source of the noise to be measured.

Residential		Commercial		Industrial
7:00 am - 10:00pm	10:00 pm - 7:00am	7:00am -10:00pm	10:00 pm - 7:00 am	All Times
60	55	65	60	75

It is understood and agreed by the undersigned that the sound amplification will be monitored to ensure compliance with all applicable city codes.

*** Attach a clear and legible drawing showing the location and type of sound equipment that will be used in relation to the property boundaries and any structures located on the property. The drawing must reflect the direction the equipment will project the amplified sound in as it related to the property boundaries and adjoining properties. Equipment should also be labeled on the drawing.

Applicant certifies that the statements provided in this request form, and any attachments, are true and correct.

Applicant acknowledges and understands that a Sound Amplification Permit is valid for a period of six (6) months from the date of issuance, unless suspended pursuant to Sec. 42-425, Daytona Beach Code of Ordinances.
